

JICA Cooperation with TGO/ CITC

11 December 2018
Side Event @ Thai Pavilion

Masato Kawanishi
Japan International Cooperation Agency
(JICA)

Three phases of cooperation with TGO/CITC

JICA cooperation with TGO/CITC: Phase 1

- *Capacity Development and Institutional Strengthening for GHG Mitigation (2010-12)*
- Capacity development of TGO
 - The level of knowledge and expertise of TGO staff on GHG mitigation is enhanced.
 - Capacity of TGO to review and monitor GHG mitigation projects is enhanced.

JICA cooperation with TGO/CITC: Phase 2

- *Capacity Development on Climate Change Mitigation/Adaptation in the Southeast Asia Region (2013-16)*
- CITC was officially launched in 2014.
 - Training needs assessment in the region
 - Training program & curriculum
 - Training resources
 - Networking

JICA cooperation with TGO/CITC: Phase 3

- *Capacity Development to Accelerate Low Carbon and Resilient Society Realization in the Southeast Asia Region (2017-20)*
- *Aspiration for "one-stop technical & training center of the region".*
- Support climate change actions in the region.

Lessons learned

- Added value of regional cooperation
 - Learning from each other
 - Background knowledge
 - Self reflection
- Capacity building needs
 - Evolving and emerging
 - Varied across countries

JICA new Technical Cooperation Project for Capacity Building on Climate Resilience in the Pacific

Project Period: 3 years (2019-2022)

- PCCC Construction (Grant) will be completed in June 2019.
- Capacity building project (Technical Cooperation) will be initiated in May-June 2019.

Targets: 14 countries eligible for Japanese ODA
